Who Am I?

I consider myself as a versatile professional with a strong desire to learn and bring my best into businesses, that thanks to an outstanding foundation in the software development life cycle, cybersecurity and database management. My profile combines cutting-edge technical expertise with a professional maturity of **+22 years of work experience** in various industries. I bring trust, leadership and a proven ability to handle and spearhead projects from initial concepts to final implementation and maintenance.

Experience

Sucato Tradings | Graduation Project

Systems & Support Engineer - POS Implementation

On Site | Jan 2025 - Dec 2025

- Proven hands-on experience delivering point-of-sale solutions that address inventory control, billing processes, and operational reporting.
- Adaptable development approach supported by continuous integration and SCRUM-based workflows.
- Enhanced system scalability and performance through security best practices and SQL query optimization

Vida Jardín Floral

Logistics and Delivery Specialist

On Site | Dec 2023 - Nov 2025

- Coordinated daily logistics and delivery operations, ensuring timely order fulfillment and accurate routing.
- Optimized operational workflows and maintained digital records using specialized tracking and inventory tools.
- Collaborated with internal teams to improve efficiency, reduce errors, and support customer satisfaction.
- Successfully completed tenure to transition full-time into the IT sector, leveraging process optimization and system-oriented experience.

Diverse Professional Experience *

Over 22 Years

- Proven record in team leadership, conflict resolution and climate change adaptability in high pressure environments.
- Commitment to meet organizational goals and meticulous attention to detail.

* Note: While this period may appear as a career gap, it represents extensive experience in logistics and business operations standards. This background has shaped my professional judgment in business decision-making, contributing a strong perspective on work ethic, leadership, and operational efficiency. This phase marks a deliberate transition from this sector.

Soft Skills

- Strong work ethic and professional discipline
- Analytical thinking and problem-solving
- Leadership and team collaboration
- Adaptability and continuous learning mindset
- Effective communication across technical and non-technical teams
- Decision-making with a business-oriented perspective
- **Languages:** Spanish (Native), English (B1+)

Technical Skills

- **Languages:** C#, Java, Python, Javascript, TSQL
- **Systems:** Kali Linux, Debian, Windows Enterprise, Docker
- **Database Handling:** SQL Server, PostgreSQL, MySQL, MongoDB
- **Management:** SCRUM, Github CD/CI, Technical Documentation
- **CCNAv7:** Introduction to Networks
- **CCNAv7:** Switching, Routing, and Wireless Essentials
- **Cisco Academy:** Introducción a la Ciberseguridad
- **Cisco Academy:** Introduction to IoT
- **OF&DF:** Hacking Ético
- **Driver's Licenses:** B-3 and A-3 (Full mobility)

Hard Skills

- Point-of-Sale (POS) system implementation
- Inventory management and operational workflows
- SQL query optimization and database management
- Secure application development best practices
- Agile methodologies (SCRUM) and CI processes
- Business process analysis and reporting

Education

BSc in Computer Systems Engineering | Universidad Fidélitas

2025

The Systems Engineering program provides a solid foundation in mathematics, programming, and information technology, covering software development, data structures, databases, operating systems, networks, web and mobile applications, systems analysis and design, project management, and IT governance. The curriculum emphasizes hands-on laboratory work and includes electives in areas such as big data, business intelligence, cybersecurity, and entrepreneurship, preparing graduates for both technical and professional roles in information systems.

“The purpose of life is to find the greatest burden you can bear... and have the courage to carry it”
Ryan Morales, 2025.
